

TRUE PLAY TO BIG EARNS

AGE OF MARS IS THE WORLD'S FIRST GAME WHERE MAIN UNITS ARE BACKED UP BY UNIQUE NFT ASSETS.

BUY NFTS, PLACE THEM ON THE PLAYING MAP AND GET REWARDED WITH PLAYTOEARN.

YOUR MISSION IS TO CREATE A HABITABLE PLANET. YOU NEED TO START PRODUCING WATER, GENERATING OXYGEN, AND CREATING ROCKET FUEL.

MARS' CLIMATE IS HARSH: STORMS BLOCK OUT THE SUN, THE ROVERS ARE STUCK IN THE SAND, AND THERE'S IS A STRUGGLE EVERY DAY. BUT WILL ALL THAT STOP YOU?

GLOBAL GOAL: VIRTUAL COLONIZATION OF MARS

Our goal is to popularize the Blockchain technology and the PlayToEarn concept. In order to achieve this goal, we are creating the world's first metaverse, which is a virtual world of the red planet, Mars.

STAGE 2. AGE OF METAMARS

The transition from a blockchain-based game to a large-scale metaverse by creating a full-fledged virtual planet, Mars. An alternative life integrated into the gameplay for millions of people around the world to play.

STAGE 1. AGE OF MARS GAME

A profitable game with the concept of PlayToEarn, using a traditional web browser interface. Our goal is to attract a global community of players to our universe centered around Mars.

TOKENOMICS: 4 TYPES OF BASIC NFTS; 2 TOKENS AND 1 METAVVERSE

MRT BURNING

MMT DISTRIBUTION

For the first time in blockchain games: the majority of the governance token - 41% - allocated for PlayToEarn!
